

**Cook Safely!**

# Prevent Kitchen Fires

Did you know

**Cooking is the biggest cause of home fires and fire injuries.**

**You can prevent cooking fires.**

**Take these steps to keep your family safe!**

**Stay in the**

**kitchen while cooking. Turn pot handles toward the back of the stove.**

**Never cook on an open fire inside the home. Only use the stove in the kitchen.**

**Supervise children when they are near the cooking space.**

**Clear all combustibles from the cooking area. Keep sleeves and all other fabric away from the heating elements while cooking.**
